

Energy

Commercial Management & Dispute Resolution/Avoidance Services

For over 25 years, DGA Group has been providing Commercial/Contract and Programming services to the construction industry throughout its global network. During this time, DGA has provided engineering and construction focused services to the Energy sector on numerous landmark projects. Our consultants have an in-depth understanding of the technical and commercial issues which often arise during the project life cycle and can provide the following services:

- Contract Management advice including the implementation of robust change management systems;
- Assessment of project change (both time and quantum)
- Preparation of claims for extension of time and loss and expense
- Expert Witness Quantum and Delay
- Dispute Management

Below is a selection of the most recent projects which our consultants have assisted organisations involved with design and construction of Energy projects:

| | |
|----------|--|
| Project | Runcorn Energy from Waste Facility |
| Value | £250m |
| Location | Runcorn, Cheshire, UK |
| Services | Commercial Management Contractual Advice |
| Role | DGA acted for Keppel Seghers (UK) Ltd, providing Expert opinion in matters referred to formal adjudication processes by supply chain members, relating to a number of separate matters in dispute. |

| | |
|----------|--|
| Project | Sevenside Energy Recovery Centre |
| Value | £250m |
| Location | Avonmouth, Bristol, UK |
| Services | Expert Witness Delay Analysis |
| Role | A DGA Expert was appointed to provide independent delay advice in the matter of a dispute between Sir Robert McAlpine & Hitachi Consortium HZI on the project to construct an Energy Recovery Centre at Avonmouth, near Bristol. |

| | |
|----------|---|
| Project | Cornwall Energy Recovery Centre |
| Value | £150m |
| Location | St Austell, Devon, UK |
| Services | Commercial Management Contract Administration |
| | Delay Analysis Claims Management |
| Role | DGA seconded a commercial team to the project to provide contract administration support and change management. DGA also provided Expert delay analysis services together with Adjudication support related to a formal supply chain dispute. |

| | |
|----------|---|
| Project | Anaerobic Digestion and Gas Fired Power Plant |
| Location | Lincolnshire |
| Services | Expert Witness |
| Role | A DGA expert was appointed by counsel as Quantum Expert to provide opinion in Adjudication on the cost of rectification of storage cells and loss of profit due to defective design causing the constructed cells to structurally fail and consequently loss of power production. |
| Project | Energy from Waste Plant |
| Location | Humberside |
| Services | Expert Witness |
| Role | Instructed as Quantum Expert to give opinion on value of variations and additional costs to the Civil Engineering and Building works for a 25MW power facility. |
| Project | Hinkley Point C Nuclear Power Plant |
| Value | £20bn |
| Location | Somerset |
| Services | Claims Management |
| Role | Instructed as Quantum Expert to give opinion on value of a significant change to the design of an aspect of the infrastructure work resulting in additional time and costs. |
| Project | Galloper Windfarm, On-Shore Substation Building & Civils Works. |
| Value | £4.6M |
| Location | Suffolk, UK |
| Services | Dispute Resolution |
| Role | Quantity Surveying Claims Management |
| | <p>DGA were appointed to this project to support the contractor’s team in the final account stage of the project. DGA seconded two members of their team full time to assist with the change management process, in particular preparation of quotations for both time and money.</p> <p>DGA also produced claims for extension of time and loss and expense under the bespoke FIDIC contract. DGA worked with the legal team preparing substantiation and narratives of quantum and delay for adjudication which resulted in a successful outcome. The final account and claim value were 173% higher than the contract price due to the significant increase in scope and other delay events.</p> |
