

## Roads Experience

### Commercial Management & Contract Administration

We believe the most effective way of controlling project costs and realising the full entitlement under a contract is the engagement of suitably qualified and experienced contract administration staff.

DGA offers a full range of commercial management services in connection with live projects, including:

- Commercial reporting, both internal and client facing,
- Change management and production of compensation event quotations,
- Subcontract procurement and commercial management through to Final Account,
- Cost and value reconciliations,
- Final account preparation and negotiation.

DGA pride themselves on their staff integrating themselves into our clients’ organisations to seamlessly operate alongside client staff for the best of the project.

Project	Smart Motorways M1J23a-j25 and M20/M23	
Value	2 Projects c£100M each - highly amended NEC3 Option C	
Location	East Midlands	
Services	Claims Management	Quantity Surveying
Role	DGA provided both live project contract administration and contractual and claims recovery advice to the JV contractors delivering the projects. This entailed carrying out a review of the compensation event and target cost mechanisms and a strategy for commercial recovery.	

Project	Highways maintenance Areas 6, 8 and Area 7	
Value	Framework Contract - NEC3 based framework contract	
Location	Cambridge	
Services	Commercial Management	
Role	DGA provided commercial staff seconded to the two framework contractors to provide contract administration. This included design development control, pricing CAPEX schemes, procuring subcontractors and suppliers, managing subcontract accounts, collating costs, dealing with variations and agreeing the final account for the individual schemes with the client.

Project	Connect Plus M25	
Location	London, UK	
Services	Commercial Management	Contract Administration
	Contractual Advice	Final Account Summary
	Procurement	
Role	DGA provide the commercial team to Connect Plus who are the agent on behalf of Highways England for the operation and maintenance of the M25 and the surrounding major arterial trunk roads. DGA provide the contractual and commercial support, including procurement and contract close out, for the various capital, maintenance and reactive contracts.	

Project	Highways Maintenance Luton	
Value	Framework Contract	
Location	Luton	
Services	Commercial Management	Quantity Surveying
	Role	
DGA provided commercial staff seconded to the contractor who were appointed by Luton Council to carry out highway's maintenance under an NEC3 based framework contract.		
DGA staff dealt with the preparation of interim applications, change control management, commercial management of subcontractors and the final account for the first phase. DGA staff also supported the tender for the second phase of this framework which was awarded to the contractor.		

Project	A2 Motorway (Poznan Bypass)	
Location	Poland	
Services	Delay Analysis	
	Contractual Advice	
Role	Advising in connection with delay and quantum issues arising out of employer and third-party interference in design approvals and enforced changes on design, build and operate project; review of insurance documentation and advising on entitlement to indemnity for failure of stone piles and remedial costs.
